1958.

19<sup>th</sup> Nov. 1958. A fine day with light breeze, but much fog. Wind more southerly.

The Azaleas & Rhododendrons have been put out from the nursery & are now in the garden. Today - 19<sup>th</sup> Nov. Sunday. The plants are all quite fresh looking & I got to the garden in the forenoon. I went to the nursery & with Mr. Wood saw the Azaleas which I have put out in the garden as shown on chart below & listed in app. 1.

Dear Mr Skelfox,

Many thanks for yr. letter -  
This is only a very rushed  
message, and not a reply.

Carlisle and I were bat hunting  
yesterday in Richill and found  
the enclosed corpse, caught in  
the crack of a trap door.

The body contains maggots and on  
turning it over on my hand

I saw an Ichneumon (?) crawl  
out of the body. I immediately

put the whole issue into this  
polythene bag and tied it.

I hope it may be of interest to  
you and that it is an

Ichneumon, but seeing it  
actually come out of the body  
I wasn't going to give it a  
chance to fly and bagged  
it.

STANLEY HULLER  
SYNOPSIS  
TELETYPE

We'd really like the  
body sometime to make a  
skeleton please.

Best wishes.

Yrs sincerely  
Stanley Huller

16th Aug. 1891. A fine day, with a  
 light breeze from the S.W. and  
 a few clouds in the sky. The  
 temperature was 70° at 10 A.M. and  
 80° at 4 P.M. The wind was  
 light and variable. The sea was  
 calm. The sky was blue with  
 a few white clouds. The sun  
 was shining brightly. The  
 air was fresh and cool. The  
 water was clear and blue. The  
 sky was a deep blue. The  
 sun was a bright yellow disk.  
 The clouds were white and fluffy.  
 The wind was a light breeze.  
 The sea was a deep blue.  
 The sky was a clear blue.

17th Aug. 1891. A fine day, with a  
 light breeze from the S.W. and  
 a few clouds in the sky. The  
 temperature was 70° at 10 A.M. and  
 80° at 4 P.M. The wind was  
 light and variable. The sea was  
 calm. The sky was blue with  
 a few white clouds. The sun  
 was shining brightly. The  
 air was fresh and cool. The  
 water was clear and blue. The  
 sky was a deep blue. The  
 sun was a bright yellow disk.  
 The clouds were white and fluffy.  
 The wind was a light breeze.  
 The sea was a deep blue.  
 The sky was a clear blue.

26th Aug. 1891. A fine day, with a  
 light breeze from the S.W. and  
 a few clouds in the sky. The  
 temperature was 70° at 10 A.M. and  
 80° at 4 P.M. The wind was  
 light and variable. The sea was  
 calm. The sky was blue with  
 a few white clouds. The sun  
 was shining brightly. The  
 air was fresh and cool. The  
 water was clear and blue. The  
 sky was a deep blue. The  
 sun was a bright yellow disk.  
 The clouds were white and fluffy.  
 The wind was a light breeze.  
 The sea was a deep blue.  
 The sky was a clear blue.

27th Aug. 1891. A fine day, with a

10<sup>th</sup>

Sept 10<sup>th</sup> 1881

Went to the  
field in the  
morning and  
found the  
plants  
growing  
very well.  
The  
leaves  
are  
very  
green  
and  
the  
flowers  
are  
beginning  
to  
show.

21<sup>st</sup> Sept 1881

Went to the  
field in the  
morning and  
found the  
plants  
growing  
very well.  
The  
leaves  
are  
very  
green  
and  
the  
flowers  
are  
beginning  
to  
show.

The leaves  
are  
very  
green  
and  
the  
flowers  
are  
beginning  
to  
show.  
Plant of *Boa* was  
picked this evening.

11

on 14th Feb. I picked up a young *Scaphiopus* from the  
marshes near Tallapoosa, in Ala. I brought it home and  
belong to it before I had it. It was a *Scaphiopus* of the  
3rd.

100

[illegible]

10 June 1879

Continued from 9th June  
following the same route  
in June 1879. The day  
was very hot and the  
ground was very dry.
